## Neonode® zForce Selective Area Touch Solutions provide the ultimate in Airport Touchscreen Interaction

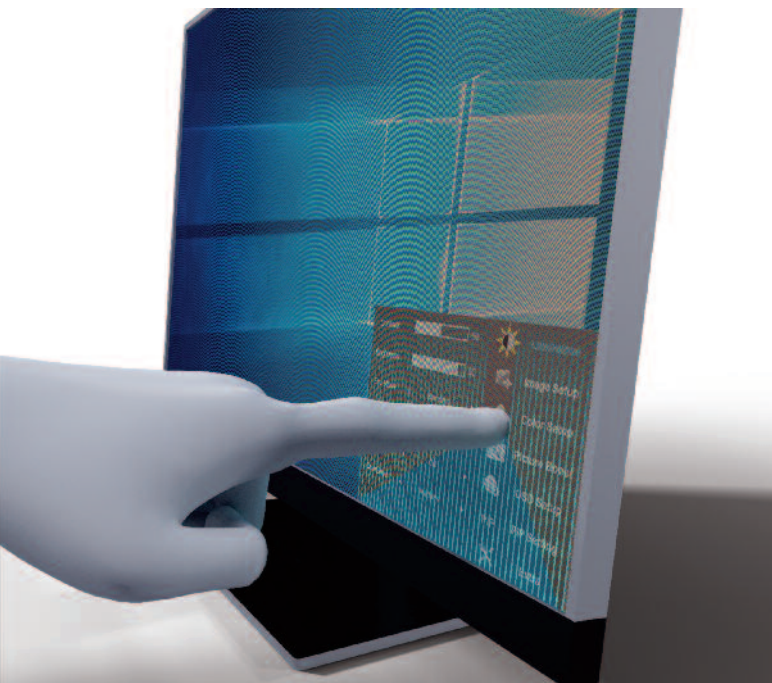

Neonode Selective Area Touch (SAT) solution is used to activate the menu system on two 55" Samsung displays in a Sandvik demo at Arlanda Terminal 5.

Travelers from all over the world can interact with the robotic demonstration and learn more about Sandvik and their leading innovation capability using Neonode's zForce Technology.

Don't settle for ordinary touch controls or display panels when you can design in a reliable, rugged and economical zForce into your next product today!

Over 66 million consumer products and 4 million cars have used zForce.

Contact your regional Neonode Sales Representative to design zForce optical Sensors into your next application.
